AOL and the government need to get out of the courts in regard to these technical issues. The reason I use the MS browser is that it is better than Netscape. I had Netscape, provided to me free by my isp and I changed because I did not like it as well as the MS browser. Since I did not pay for either one how was AOL hurt? If AOL has its way we all would be held hostage to them. AOL is much more anti consumer than anyone I know. I cannot IM with my brother because he has to use AOL. AOL blocks his access to me and my access to him. Get lost AOL. you are in second place because you are not as good. Get out of the way, and out of court, US government, and let the market place decide who is best. Get more from the Web. FREE MSN Explorer download : <http://explorer.msn.com>
